Apathy

Israel is the second largest terrorist state on planet Earth. Currently they are engaging in the systematic genocide of the Palestinian people, and we support them, both with our tax dollars and our silence.

When I say WE, that includes YOU.

Apathy kills.

CNN is covering this story. Finally. Better late than never.

Ask your self, "How would the American media respond if Iran killed an American non-violent peace activist?" Iran has detained a couple of American hikers for illegally crossing their border, and our media is all over the story. Yet, the Israeli Army murders an American peace activist, and it has taken 7 years for the media to cover the story. This goes to show how our

media is a tool used by the power elite in order to sway public opinion in support of their foreign policy. Another deceptive action the media often takes, is to label anyone who disagrees with our unconditional support of Israel as anti-Semitic, or sometimes even a holocaust denier. This

propaganda prohibits the American people from ever having an open, public

discussion on our foreign policy. For those of you that are currently

receiving all of your news from major corporations, I would like to encourage you to reach out to other sources.
